This is our world now... the world of the electron and the switch, the beauty of the baud... We explore... and you call us criminals. We seek after knowledge... and you call us criminals. We exist without skin color, without nationality, without religious bias... and you call us criminals... Yes, I am a criminal. My crime is that of curiosity...I am a hacker.

-The Mentor, 1986

If a technological feat is possible, man will do it. Almost as if it's wired into the core of our being.

Major Motoko Kusanagi

We the Hackers,
of hackerspaces world wide,
in order to promote learning,
education, exploration, tenacity,
curiosity and collaboration,
there, pushing limits and testing
boundaries, continue our our
respective journeys, which take
us where we know not, but it's
one hell of a ride. -LoZ7e
